Subject: Microsoft Settlement

Dear Madam or Sir

I would like to add my voice to those urging the court to accept the proposed settlement between Microsoft and the Federal government in the anti-trust case. With the U.S. under attack by terrorists and our economy in a downturn, a settlement would help to restore confidence in the technology sector when it is needed most. I am concerned that the continuation of this case and the uncertainty it generates will have a very negative effect on any economic recovery. It is time to end this case, which was largely brought by failed competitors of Microsoft. It would be good for the country, good for the economy, good for consumers and benefit the Seattle area.
